TAKE IT EASY, TAKE IT ANYWHERE

Every journey can be the beginning of something. A valuable experience, a happy coincidence or a shared memory. And with the versatile ŠKODA KAROQ, you can make those journeys comfortably. With its unmissable SUV styling, the KAROQ is as practical as it is head-turning. Its compact proportions are underlined by a distinctive front grille and all-round protective elements. LED illumination and eye-catching alloy wheels complete the impressive exterior.

Step inside, and you'll be welcomed by customary ŠKODA offerings like spaciousness, all-you-can-have connectivity features and reassuring assistance systems. And for those of you looking for more adventurous detours, the KAROQ also comes with an optional 4x4 drive.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

A LANDMARK ON ANY ROAD

With its robust body with protective features and higher ground clearance, the KAROQ invites you to venture off the beaten track. At the same time, its compact dimensions, sleek lines, and stylish wheels accentuate the car's ambition to be a great urban SUV.

STYLE AND FUNCTIONALITY

The car's front features newly designed elements, such as the grille, headlights, bumper with a spoiler, and more. You'll also find air curtains in the front bumper, designed to reduce the air resistance, which streamline airflow around the front wheels and the body sides.

FULL LED MATRIX HEADLIGHTS

The newly shaped KAROQ headlights are available in two types in terms of functionality. Equipped with LED lights, both types offer high performance and high energy efficiency. The top-end option comes with full LED Matrix headlights, giving the driver maximum light power without dazzling other road users.

TOP FULL LED TAIL LIGHTS

The tail lights, supplied in two versions, have also been innovated both in terms of shape and technology. Fitted with animated turn indicators, they significantly improve the visibility of your car for other drivers. In addition (depending on surrounding light intensity), when you lock and unlock your car, the welcome effect activates the animation feature.

SUV SIGNATURE

The new KAROQ evokes a sense of strength and security greatly enhanced with a newly shaped robust rear bumper with black diffuser. Depending on the car version, the new KAROQ can also feature an extended roof spoiler which underlines the car's distinctive appearance while improving its aerodynamics. With its higher ground clearance, the vehicle can travel off the tarmac regardless of the type of drive selected. If you are looking for the best possible off-road capability, we recommend the 4x4 version available with both petrol and diesel engines.

INTERIOR DESIGN

SPEND HOURS IN ONE PLACE

Inside the car, spaciousness meets sophisticated style and modern technology. The interior boasts new upholstery and décor options (including the Eco package) and a number of practical equipment to increase your comfort and safety.

DIGITAL INSTRUMENT PANEL - BASIC*

The new KAROQ features a Digital Instrument Panel with clearly readable graphics, which takes all the information you need and puts it where you need it most – in your field of vision.

DIGITAL INSTRUMENT PANEL - VIRTUAL COCKPIT

The optional Virtual Cockpit displays onboard computer specifications in combination with other information, such as navigation. You can choose from five layouts (Classic view shown) controlled via the View button on the steering wheel.

* Available later in 2022.

LED AMBIENT LIGHTING

The ambient lighting allows you to choose one of the ten colour options for the dashboard and front and rear door lighting. The selected colour will also appear in the background of the Digital Instrument Panel. The front and rear foot area illumination, supplied as part of the ambient lighting, comes in white.

COMFORT IN THE BACK

On the rear part of the Jumbo Box, you will find, among other things, a USB-C port, enabling mobile phone charging, and a socket (230 V or 12 V). In cars equipped with 3-zone Climatronic air conditioning, you will also find the control for the rear seat zone here.

ECO PACKAGE

Enjoy the unique combination of attractive design and environmental friendliness. The car's interior, equipped with the Eco package, including specific upholstery and décor, offers high comfort while strongly reflecting our commitment to sustainable development.

ECO PACKAGE - UPHOLSTERY

For the most part, the distinctive upholstery is made from recycled materials. It comes in a combination of fabric/Suedia/leatherette.

ECO PACKAGE - DÉCOR AND DOOR ARMREST

The interior equipped with the Eco package features exclusive décor on front and rear doors. The front door armrests covered in Suedia are pleasant to the touch and perfectly match the seat upholstery.

CONNECTIVITY

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA Connect, which includes Infotainment Online and Care Connect services*, is your gateway to a world of unlimited communication possibilities.

SMARTLINK

With the SmartLink, the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with Apple CarPlay or Android Auto, which are also available wirelessly. (For further information regarding wireless functionality, contact your ŠKODA partner. For usage terms and compatibility information for SmartLink, visit our website.)

LOCK & UNLOCK

This feature allows you to comfortably Lock and Unlock your vehicle via MyŠKODA App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

* These services are accessible within the MyŠKODA App.

PARKING POSITION

See the exact location of your car from anywhere. The MyŠKODA App shows the address and distance from the vehicle on your phone.

ONLINE PERSONALIZATION

You will appreciate this service especially if your car is driven by multiple users. Set your comfortable seat position, digital dashboard layout or air conditioning parameters – the settings will be synchronised with your ŠKODA ID account. Therefore next time you log in to your car after it was driven by someone else, you can comfortably set off with your preferred settings. With online personalization, you can set your preferred settings not only in your car, but in any ŠKODA vehicle that allows it.

ONLINE TRAFFIC INFORMATION

Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams. Also, local hazard information will warn you in case any inconvenience occurs on your way, such as difficult conditions or limited visibility.

eCALL+

An SOS call is made automatically in the event of an emergency on the road. The system can also be activated manually by pressing the red button on the roof console. With the eCALL+ feature, information such as the vehicle's location or the number of people in the vehicle is provided to the first responders.

**SIMPLY
CLEVER**

ŠKODA'S LITTLE HELPERS

Life is easier when the equipment is practical. The new KAROQ offers plenty of smart storage space and other helpful details that make everyday journeys more enjoyable.

DRIVER'S STORAGE BOX

The driver can utilise a practical tilting storage compartment located directly below the steering wheel.

PHONE BOX

The phone box, also suitable for large display devices, creates an amplified signal for your mobile phone and, at the same time, wirelessly charges your device while driving. Two USB-C data ports located above the phone box allow you to easily connect and pair your external devices with the infotainment system.

GLOVE COMPARTMENT

The closed storage compartment, which can be air-conditioned, is located in the lower part of the dashboard by the front passenger.

REFLECTIVE VESTS / RUBBER STRAP

The vests can be stored in the compartments in the front and rear doors, ensuring they are always within reach. In the front compartments, the items can also be fastened with a rubber strap.

LIQUID RESERVOIR

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible but also has an integrated funnel.

**COMFORT
AND SPACE**

COMFORT IS YOUR CO-DRIVER

Indulge yourself even when driving. Modern technologies, remarkable roominess, and a host of practical details will turn your everyday journey into a luxury trip.

WELCOME LOGO

The LEDs on the front doors' underside, projecting the ŠKODA inscription, illuminate the entry area.

KESY

You will quickly get used to the convenience of KESY (the Keyless Entry, Start and exit SYstem), which allows you to lock/unlock your car and start the ignition/switch off the engine without inserting the key.

JUMBO BOX

The spacious Jumbo Box storage compartment is housed in the front armrest. You can, for example, store your electronic items safely inside. The Jumbo Box can also be equipped with a coin holder and two drink holders with Easy Open function.

ADAPTIVE CRUISE CONTROL

The driver's comfort during long motorway journeys is enhanced by the Adaptive Cruise Control, which operates up to speeds of 210 km/h. Predictive Adaptive Cruise Control is also available (see Safety section).

REAR ARMREST

When the middle rear seat is not occupied, the armrest with drink holders can be folded down.

FOLDABLE TABLES

The comfort of the passengers in the rear seats can also be increased thanks to the foldable tables, which are built into the backrests of both front seats.

FOLD IT. MOVE IT. REMOVE IT

The VarioFlex rear seating system allows you to customise the interior according to your current situation. It is comprised of three separate rear seats. You can fold each one down independently, as well as remove them completely.

VARIOFLEX – ALL SEATS FOLDED DOWN

The luggage compartment, with a basic volume of 588 litres, can be extended up to 1,605 litres by folding the rear seat backrests down.

VARIOFLEX – ALL SEATS REMOVED

If you completely remove the rear seats, you gain a luggage area with a capacity of 1,810 litres.

VARIOFLEX OPTIONS

To enlarge the luggage area, you can tilt all the rear seats towards the front seats (see the left seat). This position also allows you to remove them easily. This can be done single-handedly and does not require the use of any tools.

NET PROGRAMME

The practical nets reliably prevent your things from moving around. Plus, you can clearly see where you have put everything.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make dirty, and easily turn it over to utilise the washable rubber side when required.

SAFETY

TRAVEL ASSIST

The Travel Assist system combines the functions of several assistants and ensures that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

PREDICTIVE ADAPTIVE CRUISE CONTROL

Using a radar device, camera equipped with traffic sign recognition, GPS technology, and detailed information from the road map, pACC can predict driving conditions for the next 1-2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO₂ emissions.

TRAFFIC JAM ASSIST / FOLLOW DRIVE

This function is designed to facilitate driving in traffic jams. By controlling the engine, brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

EMERGENCY ASSIST

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

FRONT ASSIST

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

SIDE ASSIST / REAR TRAFFIC ALERT

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver. Using the Side Assist sensors in rear bumper, Rear Traffic Alert (not shown) warns the driver of rear traffic as they pull away from a row of perpendicularly parked vehicles (visually on the infotainment display / onboard computer display or acoustically), or, if the case so requires, intervenes proactively, i.e., stops the car.

PARK ASSIST

The system automatically selects an appropriate parking space in a row of parallel or perpendicularly parked vehicles. The updated Park Assist function now means that it can just be used for part of the parking manoeuvre. For example, you can select a parking space yourself and attempt to park your car some of the way, but for the more difficult part of the parking manoeuvre, simply activate Park Assist, which takes control of the steering wheel.

MANOEUVRE ASSIST

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 8 km/h). If an obstacle is detected, based on the distance from the obstacle and the car's speed, the system engages the emergency braking.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

MATRIX BEAM FUNCTION

The full LED Matrix headlights feature matrix beam function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the matrix beam function responds to the traffic situation and turns off only some segments of the light. Other segments are turned on and illuminate the road. In addition, thanks to this function, you are not blinded by reflective materials on traffic signs, for example. The matrix beam function also uses information from the navigation system, so the high beams will only turn on when you are out of a built-up area.

CREW PROTECT ASSIST

This assistance system provides increased protection for front-seat passengers in critical situations that could lead to a crash by closing the side windows to leave only a 5 cm gap, shutting the roof window, and tightening seatbelts. The new state-of-the-art version of the system can use radar sensors both in front and in the rear.

TRAILER ASSIST

The system takes control when you reverse slowly with a trailer or caravan and makes your parking manoeuvres easier and safer. All you have to do is decide where to reverse to, when to start and when to stop.

SAFE HAPPENS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can equip your car with up to nine of them.

FRONT DRIVER AND PASSENGER AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These airbags (shown together with the activated head airbag) protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

PERFORMANCE

PERFORM ON ANY STAGE

DYNAMIC CHASSIS CONTROL

Enjoy the high performance of your car in maximum comfort and safety. The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. As part of the infotainment menu, it allows you to select one of three modes according to your specific requirements: Comfort, Normal or Sport.

All the engines on offer have many things in common. They are powerful, economical, and meet strict emission standards. This makes the KAROQ feel as much at home in the city as it is in the wild.

ENGINES

If you prefer petrol engines, you can choose between 81 kW and 110 kW output both in combination with front-wheel drive. Our diesel range includes an 85 kW engine combined with front-wheel drive and a 110 kW engine supplied both with front-wheel drive and 4×4 drive.

SPORTLINE

FOR THE SPORT CALLED LIFE

They say there is no rest for the restless. But the new ŠKODA KAROQ SPORTLINE is certainly a comfortable way to unleash your active ambitions. And with the optional 2.0 TSI/140 kW 4×4 engine, driving to your favourite outdoor activity will be as exhilarating as the sport itself.

STYLE AND FUNCTIONALITY

The bumpers in the SportLine design are accompanied by black exterior elements, such as front grille frame, external side-view mirror caps, window frames, and roof railings. The dynamic appearance of the car is further enhanced by the extended roof spoiler, inscriptions in black on the 5th door (such as ŠKODA, the model name, or 4×4), black rear diffuser, and 18" black or 19" anthracite (shown) alloy wheels. In addition, the full LED Matrix headlights come as standard.

SPORT MODE IS ALWAYS ON

The dynamic exterior is perfectly matched by an equally impressive black interior that combines sporty style and elegance. It includes, among other things, front sports seats, a sports steering wheel with SportLine plaque, upholstery with ThermoFlux function, distinctive décor, LED ambient lighting, and much more.

FRONT SPORTS SEATS

The front sports seats provide maximum comfort even during a dynamic drive. Thanks to the specific fabric upholstery with ThermoFlux function, which ensures more breathability, the passengers can enjoy maximum comfort in all climatic conditions.

SPORTS STEERING WHEEL

Your driving pleasure is enhanced by the multifunctional 3-spoke sports steering wheel in perforated leather, with silver stitching and an original SportLine plaque. The optional Virtual Cockpit, which can display onboard computer specifications in combination with other information, offers five layouts with specific graphics controlled via the View button on the steering wheel. In addition, the SportLine version features special graphics for Sport View (shown).

TRY A NEW SPORT

A person with long, wavy brown hair is sitting in the driver's seat of a car. They are wearing a grey hoodie and several colorful beaded bracelets on their left wrist. Their left hand is resting on a metal guardrail that runs alongside a road. The background shows a clear blue sky and a road stretching into the distance. The overall mood is serene and suggests a sense of freedom and personal style.

CUSTOMISATION

ACTIVE

The standard equipment of the Active version includes external side-view mirrors (electrically-adjustable and heated) and door handles in body colour, remote controlled central locking, low LED headlights, front fog lights, LED tail lights, 2-spoke multifunctional leather steering wheel, leather gear stick knob, interior door handles in chrome, Swing 6.5" infotainment, Bluetooth, Basic 8" digital display*, USB-C, electrically controlled front and rear windows, air conditioning, Light Assist (Tunnel light, Coming home, and Leaving home), Cruise Control with speed limiter, Park Distance Control in the rear, plus more.

ACCESSORIES

MAKE YOUR KAROQ YOUR KAROQ

Accessories aren't just fashion fads. With ŠKODA Genuine Accessories, you can transform your car by expanding its practicality, safety, and purpose, and make it a lot more suitable for your specific needs.

FOOTBOARDS

Made from stainless steel, this accessory is designed to stand out and make your life easier when loading various objects on the roof. It is also fitted with an anti-slip rubber liner to increase your safety.

FRONT AND REAR MUD FLAPS

The front and rear mud flaps protect the lower areas of the vehicle body from dirt and damage caused by stones and debris striking them. Mud flaps are useful especially in winter, when the corrosive salt that is spread on the roads generally sticks to the mud flaps rather than to the vehicle body.

SMART HOLDER COMFORT PACK

There are many reasons why drivers love ŠKODA vehicles. Some people appreciate the practicality, others admire the family virtues, and some are impressed by the timeless design and comfort. We have prepared packages to help you use your car's space according to your varied needs. Enjoy your very own comfort zone wherever you go. The Comfort Pack offers many smart solutions to make your business and family trips even more pleasant.

BIN FOR DOOR PANEL

The stylish waste bin, which comes as part of the Comfort Pack, is an elegant solution for dealing with rubbish in the car. It is effortless to use. The lid makes sure that any odour stays inside the bin along with your rubbish.

SMART HOLDER – MULTIMEDIA HOLDER

The holder for an external device, which can be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

SMART HOLDER – HOOK

Handbags and backpacks don't have to take up space on the back seats. Hang them from the smart holder hook that is fixed to the front headrests.

SMART HOLDER – HANGER

The clothes hanger, which can be mounted on the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

ALUMINIUM DECORATIVE DOOR SILL STRIPS

Four-piece aluminium door sill covers with KAROQ inscription, which perfectly follow the contours of the vehicle, are an original feature with aesthetic as well as practical functions.

DECORATIVE DOOR SILL STRIPS WITH ALUMINIUM INSERT

Four-piece decorative door sill covers with aluminium inserts are an accessory that can be used to enhance your vehicle's aesthetics. They also protect the paintwork around the door sills from dirt.

ALL-WEATHER MAT OVER TUNNEL

This accessory, which is a practical addition to the rear all-weather mats, protects the surface of the centre tunnel from dirt on footwear worn by rear passengers.

FOOTREST "LOUNGE STEP" 2PCS

The footrest helps to protect the floor while reducing the interior noise. Easy to remove, clean, and reuse.

TEXTILE FOOT MATS PRESTIGE - DOUBLE NUBUCK

They aesthetically complement the modern interior design and outline the footwell contours.

ALL-WEATHER FOOT MATS

Thanks to their practical, smart design and material they optimally protect the floor from mud, dirt, and water.

NETTING SYSTEM – GREY

The set of three nets is a practical and attractive accessory. It secures transported items in place and prevents them from sliding around while the vehicle is in motion.

**BOOT DISH WITH RAISED EDGES**

This accessory protects the luggage compartment from moisture and dirt and is therefore a practical solution for any vehicle.

**BOOT PROTECTION – FOLDABLE**

This foldable boot protection covers the floor and all sides of the luggage compartment of the ŠKODA KAROQ. The folding luggage compartment protector is made of black waterproof fabric, so it reliably prevents moisture getting through. It also protects against damage.

**DOUBLE-SIDED BOOT MAT**

Adapt your luggage compartment to your needs at any time. This double-sided mat is tidy and elegant when you turn it textile side up. The other, rubber side is there for when you need to transport items that might get the car's interior dirty or damage it. You're ready for any situation!

SUN SHADES FOR TAILGATE AND BOOT SIDE WINDOWS

This useful and easy-to-fit accessory provides protection from sun as well as concealing the cargo area from prying eyes.

SUN SHADES FOR REAR SIDE WINDOWS

This accessory for the whole year round protects you from harsh sunlight in the summer and provides greater privacy from passersby looking inside.

BABY MIRROR

With the baby mirror, you will always be able to see what your children are up to in the back. By the same token, it is calming for children to have visual contact with you. The baby mirror allows you to quickly check on your children while maintaining full control of the car when driving.

CHILD SEATS

Each type of child safety seat from the ŠKODA Genuine Accessories range undergoes a series of rigorous tests. You will find seats designed for children up to 36 kg in our comprehensive range.

TRANSVERSE ROOF RACK

Thanks to the lockable transverse roof rack, you can use other racks and holders from the ŠKODA Genuine Accessories range such as bicycle or ski carriers and ski or snowboard boxes.

SKI OR SNOWBOARD RACK

The lockable rack, which has passed ŠKODA's load tests and safety tests, is a simple solution for transporting your skis or snowboard on the car roof. It can carry 4 pairs of skis or 2 snowboards.

TOWBAR RACK FOR 3 BICYCLES

The rack is extremely sturdy, easy to fit, and easy to use – simply lift the bicycle up a little to secure it in place. It works with all types of tow bars and is available in 2- and 3-bicycle variants.

BICYCLE RACK

You can securely attach the lockable bicycle rack with aluminium profile onto the basic roof rack.

ROOF BOXES

Enjoy a larger capacity and easier loading with the ŠKODA roof boxes, which enable you to transport skis or snowboards, as well as bulky luggage, pushchairs, etc., that would not fit into the boot of a fully occupied car. All roof boxes feature an advanced aerodynamic shape and UV protection, ensuring that your box will always look new.

ROOF BOX – 400 LITRES

This lockable roof box for up to 6 pairs of skis or 5 snowboards features exceptional capacity, opening on both sides, and easier handling. The box is available in black or silver.

ROOF BOX – 380 LITRES

The lockable roof box with an aerodynamic profile for up to 5 pairs of skis or 4 snowboards features an optimised shape with a lower bottom, which positively affects driving stability and limits vibrations while minimising air drag and associated driving noise. The box is available in black, silver, and white.

WHEELS

The ŠKODA Genuine Accessories range offers new exclusive alloy wheels that can be fitted in various design and colours for the new KAROQ. Customers can choose from a broad selection of sizes ranging from 16" to 19".

19" CETUS black/red metallic wheel, brushed 8J×19" ET 45*

19" CETUS silver metallic wheel, brushed 8J×19" ET 45*

18" HYDRUS anthracite metallic alloy wheel, brushed 7J×18" ET 45

18" HYDRUS black matt metallic alloy wheel, brushed 7J×18" ET 45

18" CORVUS silver metallic alloy wheel, brushed 7J×18" ET 45

18" HYDRUS silver metallic alloy wheel 7J×18" ET 45

18" CORVUS black metallic alloy wheel, brushed 7J×18" ET 45

17" KUMA silver metallic alloy wheel 7J×20" ET 45

17" KUMA black metallic alloy wheel 7J×20" ET 45

WHEEL CARE AND STYLE PACK

COVERS FOR COMPLETE SET OF WHEELS

This set of high-quality polyester wheel covers enables easy wheel transport and handling.

Car wheels are like shoes. No matter whether the “shoes” of your ŠKODA are stylish, sporty or purely functional, our WHEEL CARE & STYLE PACK (wheel covers, valve caps, locking wheel bolts) offers a multitude of items which will make your wheels even more attractive and totally unique!

DECORATIVE VALVE CAPS

With tyre valve caps bearing the ŠKODA logo, ŠKODA Motorsport green or RS red emblem, your car will look stylish down to the smallest detail.

LOCKING WHEEL BOLTS

The locking wheel bolts supplied with a special adapter provide your vehicle with greater protection against the attempted theft of your wheels. All you need to do is swap one standard bolt on each wheel with a safety wheel bolt.

BOLT COVERS

Our offer includes decorative bolt caps for wheels with and without locking wheel bolts.

Rear axle	Twist-beam axle/4x4: multi-link axle with torsion stabiliser	VarioFlex system: upright/down or removed seats	588/1,605–1,810
		Tank capacity (l)	50; 4x4: 55

WLTP – World harmonized light-duty vehicles test procedure.

* According to equipment.

** Applies to the version with VarioFlex system.

() Applies to the version with automatic transmission.

The diesel engines use Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO_x). The volume of the AdBlue® tank is 12 l and consumption depends on the driving style.
